GOALS

- ✓ Provide a foundation for the District's future surface water management program.
- ✓ Reaffirm the District's mission and vision for surface water management.
- ✓ Be strategic: clarify the District's top priorities for water quantity and quality.
- ✓ Develop an action plan with specific steps and schedule to implement the vision.
- ✓ Align District resources to achieve results.
- ✓ Enhance Board/staff understanding of community priorities, in preparation for an expanded SWM program requiring increased resources.
- ✓ Through the strategic planning process, reactivate the SWM Citizens Advisory Committee.

OUTCOMES

- 5-10 priority projects; estimated costs.
- Topics:
 1. Ordinance update: expand authority, structural standards
 2. Clarify jurisdiction: District, WES, County, ODOT, cities, private
 3. O+M activities
 4. Capital plan revamped
 5. Financial plan
 6. Public participation
